HiJack! Older!HiccupxJackson

Even Hiccup Snaps

Even Hiccup Snaps

**\*\*Kura: HiJack week is here again! YAY! MY SECOND HIJACK WEEK! WHOO!  
\*\***

**\*\*Sakura: Hope you enjoy this. \*\***

Hiccup didn't know which was worse. Astrid groping his boyfriend, or Heather groping him.

'Ugh...why don't just a fucking clue! How many times do I have to say, "I'm gay!" for crying out loud!' He looked at Jackson, who looked uncomfortable. He couldn't blame him, he'd only been living in Berk for three months. And out of those three months, he's been Hiccup's boyfriend for two.

"Come on Jackie..." Astrid cooed, pullingg on his brown vest. Jackson shot his chocolate colored gaze at Hiccup. Hiccup groaned as Heather pressed her chest onto his.

"Hiccy, look at me!" She whined. Hiccup growled as she tried to give him a puppy dog look. With all the make-up she had on, she looked like a depressed clown. Hiccup swore he heard Jackson singing, "Ba-ba-bada-bada-da-dada-da-da."

He cracked a smile and looked at Heather, who pressed herself closer to him. He rolled his eyes, wwhich widend when he heard a yelp. He looked towards Astrid and Jackson. His eyes flashed, when he saw the blond press her lips onto Jackson's, and Jackson's eyes widened in shock. He looked at Hiccup and seeing that desperate look in the

younger's eyes, Hiccup decided he had had enough.

"FUCK OFF!" Astrid and Heather stared at him. "I'VE TOLD YOU BEFORE, HEATHER! I'M GAY! I ALWAYS HAVE BEEN AND ALWAYS WILL! AND ASTRID, STOP GROPING MY BOYFRIEND!" Hiccup pulled Jackson away and picked him up bridal style.

"HICCUP!" Jackson whined. He kicked his legs and pouted, when he realized Hiccup was not letting him down anytime soon.

Hiccup looked at him, "Sorry you had to see that..."

"No. It's okay. I mean, even you have to snap at some point." Hiccup smiled and held Jackson closer. He got one thing right. Even he, Hiccup Haddock III, had a snapping point. And that snapping point was if anyone dared mess with him or his snowflake, Jackson Overland.

\*\*Kura: Review. \*\*
